

graph_theory::operator==

```
graph LR; A[graph_theory::operator==] --> B[graph_theory::edge::to_tuple]
```

A diagram showing a mapping from the `graph_theory::operator==` function to the `graph_theory::edge::to_tuple` function. The left box is shaded gray and the right box is white. A blue arrow points from the left box to the right box.

graph_theory::edge
::to_tuple
